

Safety Assessments for Specialty Chemicals.

Accelerating Compliance.

Securing Global Market Access.

In every molecule is the
possibility for better health.

All-Inclusive Regulatory Support, All Under One Roof

At **Aragen BioSafety**, we simplify your regulatory journey with GLP-compliant analytical services tailored to your needs. With over 30 years of expertise, we provide comprehensive, end-to-end safety assessment solutions across pharmaceuticals, agrochemicals, industrial chemicals, and more, supporting your product development and registration every step of the way.

Our Core Expertise

Analytical Chemistry & Physchem Studies

5-Batch Analysis & Impurity Profiling:

Comprehensive chemical characterization designed for first-time-right global dossier filings.

Physicochemical Testing

(solubility, stability, partition coefficient, etc.)
for technical and formulated grade products

Real-Time & Accelerated Stability Testing:

Rigorous environmental profiling across all global climatic zones.

Compliance with global guidelines:

OECD, EPA, EU, FDA, ICH, ISO, REACH

Toxicology Studies

General Toxicology

(acute, sub-acute, chronic)readiness

Inhalation

& Carcinogenicity Studies

Genetic Toxicology

(Ames test, micronucleus, chromosomal aberration)

Safety Pharmacology & Toxicokinetics

Developmental &

Reproductive Toxicology

Studies conducted under

GLP & AAALAC-accredited facilities

Ecotoxicology Studies

- Aquatic, Terrestrial, and Sediment Ecotoxicology
- Pollinator and Avian Toxicity Studies
- Adherence to OECD, OPPTS, ECHA, ISO, CIB-RC standards

Environmental Fate (E-Fate) Studies

- **Adsorption/Desorption, Hydrolysis, Photolysis**-key process analysis
- **Biodegradation, Bioaccumulation, and Metabolism Studies**
- **Soil, Water, Sediment**-environmental behavior profiling
- **Carbon and Nitrogen Transformation**-soil microorganisms activity assessment
- **Mobility, Degradation, Bioaccumulation**-impact assessment

Why Choose Aragen BioSafety ?

19,000+ GLP Studies | **400+** Global Clients | **Analytical Expertise** LC-MS/MS & GC-MS
| **On-Time Delivery** | **GLP-Accredited** Laboratory | **Transparent Pricing**

Accreditation and Regulatory Compliances

Serving Global Clients | Trusted by Industry Leaders

Whether you're navigating complex regulations or advancing new products, **Aragen BioSafety** is your **strategic partner** for delivering **reliable, reproducible, and regulatory-ready data packages**-backed by decades of **scientific excellence**.

www.aragen.com

Aragen is a trusted R&D and manufacturing partner to the global life sciences industry. From concept to commercial, we transform your ideas into solutions for better health. We have more than 25 years of experience providing a range of contract research, development and manufacturing services across the drug development continuum, with a focus on early-stage discovery and development of new molecular entities (NMEs). Whether large pharma or biotech, an agrochemical or animal health company, we provide you global resources and proven capabilities at every stage of the biopharma lifecycle, in small and large molecules. Our ability to offer end-to-end solutions or support standalone programs is underpinned by an innovation mindset, enabling technologies, and a partnership approach to every engagement.

At Aragen, we recognize your work is vital, urgent and impacts lives. Our purpose, 'In every molecule is the possibility for better health' motivates us to drive the success of your programs, so that we can together transform hope into health for millions of people around the world.
